INDEX

VOLUME 63, 1987

A

Abramson, David H. The diagnosis of retinoblastoma, 283
Academic division: The perspective of a division chief, Economic problems facing the infectious disease. Vincent T. Andriole, 557
Academic medical center: The perspective of a chairman of medicine, Economics and infectious diseases in the. Donald Kaye, 550
Access and quality issues. Marion Ein Lewin, 20
Acetabular fractures, Management of. Jean-Pierre C. Farcy, Ronald Moskovich, and Leonard Leonardi, 327
Africa, A review of HIV-1 in. Allan R. Ronald, Jacokoniah O. Ndinya-Achola, Francis A. Plummer, J. Neil Simonsen, D. William Cameron, E. Ngugi, and H. Pamba, 480
Age-related macular degeneration. Lawrence A. Yannuzzi, Robert Friedman, Stuart L. Fine, J. Donald Gass, Kurt A. Gitter, David A. Orth, and Lawrence J. Singerman, 955
AIDS and the duty to treat: risk, responsibility and health care workers. Ronald Bayer, 498
AIDS epidemic and its consequences for the health care system of New York City, Predicting the future of the. Michael H. Alderman, Ernest E. Drucker, Alan Rosenfeld, and Cheryl Healton, 175
AIDS, Political and social issues surrounding. Stephen C. Joseph, 506
AIDS: The expertise of the behavioral sciences, Preventing and treating. Anke A. Ehrhardt, 513
AIDS, The press and. Lawrence K. Altman, 520
Alcohol, industrialization, and high-energy foods. Vincent J. Knapp, 430
Alderman, Michael H., Ernest E. Drucker, Alan Rosenfeld, and Cheryl Healton. Predicting the future of the AIDS epidemic and its consequences for the health care system of New York City, 175
Allen, James R. Heterosexual transmission of human immunodeficiency virus (HIV) in the United States, 464
Allergy (Bryan's test), Statement on cytotoxic testing for food. Committee on Public Health, 117
Altman, Lawrence K. The press and AIDS, 520
Ambulatory care continuity experience for medical housestaff at a large municipal hospital. Robert J. Starkenburg and Fred Rosner, 347
American medicine, The New York Academy of Medicine's role in a historic contribution to. Bernard J. Pisani, 898
Andriole, Vincent T. Economic problems facing the infectious disease academic division: The perspective of a division chief, 557
Antibiotic therapy, Home management of intravenous. Donald M. Poretz, 570
Appropriate reimbursement of clinical services of the infectious diseases practitioner. Stephen E. Lawton, 591
Arlin, Zalmen A., 203
Artificial device in contact with blood: initial events and their effect on its final state, The life of an. Leo Vroman, 352
ATVs? Who's right about. Robert D. Verhalen, 806
Automobile restraint systems, Problem delineation. John D. States, 684
Automotive restraints, Panel discussion: the laws, referendum issues and. Michael M. Finkelstein, 757

B

Bacterial cause of peptic ulcer disease, Campylobacter pylori-A. Richard B. Hornick, 529
Barancik, Jerome I., Caroline F. Kramer, Henry C. Thode, Jr., and David Harris. Efficacy of the New York State seat belt law: prelimi-

nary assessment of occurrence and severity, 742
Bayer, Ronald. AIDS and the duty to treat: risk, responsibility and health care workers, 498
Behavioral interventions, Panel discussion. Andre O. Varma, 662
Behavioral sciences approach to transportation safety, E. Scott Geller, 632
Behavioral sciences, Preventing and treating AIDS: The expertise of the. Anke A. Ehrhardt, 513
Beinfield, William H. Dr. Milton Raisbeck—San Francisco, 900
Bell, Eleanor. Disease reporting by physicians in New York City, 422
Belt law: preliminary assessment of occurrence and severity, Efficacy of the New York State seat. Jerome I. Barancik, Caroline F. Kramer, Henry C. Thode, and David Harris, 742
Belt laws, New York seat. William G. Rourke, 779
Belt use in Canada, and some inferences concerning the effectiveness of seat belt use laws, Trends in seat. John J. Lawson, 774
Belt use laws in the United States: trends and prospects, Seat. Brian O'Neill, 729
Benison, Saul. A shared vision: creating an environment for medical research in New York, 262
Biomedical research, 1850–1987, The medical schools of New York and the national enterprise of. Kenneth M. Ludmerer, 216
Bioresorbable grafts, Mechanical factors in. Peter D. Richardson, 132
Blood: initial events and their effect on its final state, Life of an artificial device in contact with. Leo Vroman, 352
Blood for transfusions, Statement on sources of. Committee on Public Health, 595
Book Reviews
J. Worth Estes and David M. Goodman: *The Changing Humors of Portsmouth: The Medical Biography of an American Town, 1623–1983*. William D. Sharpe, 358
Saul Jarcho, editor: *Italian Broadsides Concerning Public Health: Documents from Bologna and Brescia in the Mortimer and Anna Neinken Collection, New York Academy of Medicine*. Angelo Taranta, 435
William B. Ober: *Bottoms Up! A Pathologist's Essays on Medicine and the Humanities*. Vincent J. Cirillo, 869
Bottoms up! A Pathologist's Essays on Medicine and the Humanities. William B. Ober. Vincent J. Cirillo, 869
Brown, Stuart T. and James Monroe. Federal resources for injury control, 859
(Bryan's Test), Statement on cytotoxic testing for food allergy. Committee on Public Health, 117
Budnick, Lawrence D. Disease reporting by physicians in New York City, 422

C

Campylobacter pylori—A bacterial cause of peptic ulcer disease. Richard B. Hornick, 529
Canada and some inferences concerning the effectiveness of seat belt use laws, Trends in seat belt use in. John J. Lawson, 774
Candida in the gut: real or imaginary. John E. Edwards, Jr., 544
Care competition, The long rise and fast fall of health. James A. Morone, 101
Care continuity experience for medical housestaff at a large municipal hospital, Ambulatory. Robert J. Starkenburg and Fred Rosner, 347
Care/hospital care/cooperative care options for the practice of medicine, Home. Anthony J. Grieco, 318
Care: options for the future, Financing long-term, Constance Horner, 15
Cause and control of automotive trauma. David C. Viano, 376
Causes, Some perspectives on human obesity. Albert J. Stunkard, 904
Center: The perspective of a chairman of medicine, Economics and infectious diseases in the academic medical. Donald Kaye, 550
Children, Reducing pedestrian crashes among. David F. Preusser, 623
Cholera, colonization, and child labor, Thomas Hodgkin and 1832:. Louis Rosenfeld, 184
Chronic Epstein-Barr virus syndrome. James F. Jones, 538
Clinical and histopathological review of intermediate uveitis (''Pars Planitis''). Joseph W. Eichenbaum, Alan H. Friedman, and Alfred E. Mamelok, 164
Clinical applications of magnetic resonance

imaging of the spine. Hossein Firooznia, 943
Clinical services of the infectious diseases practitioner, Appropriate reimbursement of. Stephen E. Lawton, 591
Closing remarks: the issues in perspective. Joseph Greensher, 866
Coat's disease. David H. Abramson, 283
Committee on Public Health. Statement on sources of blood for transfusions, 595
Committee on Public Health. Statement on cytotoxic testing for food allergy (Bryan's test), 117
Condom, *Cum hastis sic clypeatis:* The turbulent history of the. Ronald O. Valdiserri, 237
Conferences (see also Symposia)
Next Steps in Health Care Financing, 5
Conferring of honorary fellowship upon Arnold S. Relman. Saul J. Farber, 889
Cooperative care, options for the practice of medicine Home care, hospital care. Anthony J. Grieco, 318
Convictions on fatal traffic crashes, effects of legal penalty changes and laws to increase drunken driving. Ralph Hingson, 668
Cranefield, M.D., and Brian F. Hoffman, M.D., Presentation of the Academy medal to Paul F., M. Irene Ferrer, 884
Crashes, Effects of legal penalty changes and laws to increase drunken driving convictions on fatal traffic. Ralph Hingson, 668
Crashes among children, Reducing pedestrian. David F. Preusser, 623
Crash injuries in California, 1985, Motorcycle design and. Jess F. Kraus, Paul Zador, Shakeh Arzemanian, Craig L. Anderson, and Steven Harrington, 790
Crash response, Restraint system design and. James E. Hofferberth, 704
Cum hastis sic clypeatis: the turbulent history of the condom. Ronald O. Valdiserri, 237
Cytotoxic testing for food allergy (Bryan's test), Statement on. Committee on Public Health, 117

D

Davis, Karen. Health care and the nation's economic and social agenda, 5
Degeneration, Age-related macular. Lawrence A. Yannuzzi, Robert Friedman, Stuart L. Fine, J. Donald Gass, Kurt A. Gitter, David A. Orth, and Lawrence J. Singerman, 955
Design and crash injuries in California, 1985, Motorcycle. Jesse F. Kraus, Paul Zador, Shakeh Arzemanian, Craig L. Anderson, and Steven Harrington, 790
Design and crash response, Restraint system. James E. Hofferberth, 704
Diagnosis of retinoblastoma. David H. Abramson, 283
Disease academic division: The perspective of a division chief, Economic problems facing the infectious. Vincent T. Andriole, 557
Disease physician-future tense? The infectious. John E. McGowan, Jr., 449
Disease reimbursement, A perspective on the future of infectious. John K. Iglehart, 577
Disease reporting by physicians in New York City. Lawrence D. Budnick and Eleanor Bell, 422
Diseases in the academic medical center: the perspective of a chairman of medicine, Economics and infectious. Donald Kaye, 550
Disease practitioner, Appropriate reimbursement of clinical services of the infectious. Stephen E. Lawton, 591
Diseases related to social and pharmaceutical industry situations, Problems with old. Harold C. Neu, 456
Doctor: overview of issues and options, Paying the. Paul B. Ginsburg, 69
Worcester, Dr. Alfred: Early exponent of modern geriatrics. Joseph T. Freeman, 246
Raisbeck, Dr. Milton—San Francisco. William H. Beinfield, 900
DRG prepayment: its purpose and performance. John D. Thompson, 28
DRGs and capital, Next steps for prospective payment. Judith Wagner, 63
Driver education: the mix of science and ideology. Leon S. Robertson, 617
Driving convictions on fatal traffic crashes, effects of legal penalty changes and laws to increase drunken. Ralph Hingson, 668
Drucker, Ernest E., 175
Drunken driving convictions on fatal traffic crashes, Effects of legal penalty changes and. Ralph Hingson, 668

E

Economic and social agenda, Health care and the nation's. Karen Davis, 5
Economic problems facing the infectious disease academic division: The perspective of a division chief. Vincent T. Andriole, 557
Economics and infectious diseases in the academic medical center: the perspective of a

chairman of medicine. Donald Kaye, 550
Eden, Alvin N. and Dorothy Levenson. Pediatrics at the New York Academy of Medicine: the first hundred years, 1016
Education, Injury control and engineering. Russel C. Jones, 840
Education: the mix of science and ideology, Driver. Leon S. Robertson, 617
Education, Trauma systems: an interdisciplinary approach to prevention, treatment. David J. Kreis, Jr., 837
Edwards, John E., Jr. Candida in the gut: real or imaginary, 544
Effects of legal penalty changes and laws to increase drunken driving convictions on fatal traffic crashes. Ralph Hingson, 668
Efficacy of the New York State seat belt law: preliminary assessment of occurrence and severity. Jerome I. Barancik, Caroline F. Kramer, Henry C. Thode, and David Harris, 742
Ehrhardt, Anke A. Preventing and treating AIDS: The expertise of the behavioral sciences, 513
Eichenbaum, Joseph W., Alan H. Friedman, and Alfred E. Mamelok. A clinical and histopathological review of intermediate uveitis ("Pars Planitis"), 164
Elderly, Falls in the. Rein Tideiksaar, 145
Engineering education, Injury control and. Russel C. Jones, 840
Epstein-Barr virus syndrome, Chronic. James F. Jones, 538
Ervin, Robert D. Injury risks posed by incompatabilities between truckers and other highway users, 818

F

Falls in the elderly. Rein Tideiksaar, 145
Farcy, Jean-Pierre C., Ronald Moskovich, and Leonard Leonardi. Management of acetabular fractures, 327
Fatal traffic crashes, Effects of legal penalty changes and laws to increase drunken driving conviction on. Ralph Hingson, 668
Feder, Judith, 52
Federal resources for injury control. Stuart T. Brown and James Monroe, 859
Fellowship upon Arnold S. Relman, Conferring of honorary. Saul J. Farber, 889
Felts, William R. Medicare and physician reimbursement—a rational viewpoint: the AMA perspective, 75
Financing long-term care: options for the future. Constance Horner, 15
Finkelstein, Michael M. Panel discussion: the laws, referendum issues and automotive restraints, 757
Firooznia, Hossein. Clinical applications of magnetic resonance imaging of the spine, 943
Fluids and nutritions: an alternate way, Withdrawing. Fred Rosner, 363
Foege, William H. Injury as an issue in violence, 782
Foods, Alcohol, industrialization, and high-energy. Vincent J. Knapp, 430
Fractures, Management of acetabular. Jean-Pierre C. Farcy, Ronald Moskovich, and Leonard Leonardi, 327
Freeman, Joseph T. Dr. Alfred Worcester: Early exponent of modern geriatrics, 246
Friedman, Alan H. 164

G

Geller, E. Scott. A behavioral sciences approach to transportation safety, 632
Gentry, Layne O. Home management of osteomyelitis, 565
Gerberding, J. Louise. Transmission of HIV to health care workers: risk and risk reduction, 491
Geriatric rehabilitation: perspectives and potentials. Heinz I. Lippman, 123
Geriatrics, Dr. Alfred Worcester: Early exponent of modern. Joseph T. Freeman, 246
Ginsburg, Paul B. Paying the doctor: overview of issues and options, 69
Grafts, Mechanical factors in bioresorbable. Peter D. Richardson, 132
Greensher, Joseph. Closing remarks: the issues in perspective, 866
Grieco, Anthony J. Home care/hospital care/cooperative care, options for the practice of medicine, 318
Gut: real or imaginery, Candida in the. John E. Edwards, Jr., 544

H

Haddon, Jr., Tribute to William. Daniel P. Moynihan, 605
Hadley, Jack, 52
Harris, David. Welcome and introduction, 607
Health care and the nation's economic and social agenda. Karen Davis, 5
Health care competition, The long rise and fast fall of. James A. Morone, 101

Health care workers, AIDS and the duty to treat: risk, responsibility and. Ronald Bayer, 498
Health care workers, Human immunodeficiency virus infections: considerations for. Gary P. Wormser, Carol Joine, Steven L. Sivak, and Zalmen A. Arlin, 203
Health care workers: risk and risk reduction, transmission of HIV to. J. Louise Gerberding, 491
Healton, Cheryl, 175
Heterosexual transmission of human immunodeficiency virus (HIV) in the United States. James R. Allen, 464
Highway users, Injury risks posed by incompatabilities between truckers and other. Robert D. Ervin, 818
HIV to health care workers: Risk and risk reduction, Transmission of. J. Louise Gerberding, 491
HIV-1 in Africa, A review of. Allan R. Ronald, Jacokoniah O. Ndinya-Achola, Francis A. Plummer, J. Neil Simonsen, D. William Cameron, E. Ngugi, and H. Pamba, 480
Hodgkin: The Southern Retreat and the Oxford case, Thomas. Louis Rosenfeld, 335
Hodgkin and 1832: cholera, colonization, and child labor, Thomas. Louis Rosenfeld, 184
Home care hospital care cooperative care, options for the practice of medicine. Anthony J. Grieco, 318.
Home management of intravenous antibiotic therapy. Donald M. Poretz, 570
Home management of osteomyelitis. Layne O. Gentry, 565
Horner, Constance. Financing long-term care: options for the future, 15
Hornick, Richard B. Campylobacter pylori-A bacterial cause of peptic ulcer disease, 529
Hospital, Ambulatory care continuity experience for medical housestaff at a large municipal. Robert J. Starkenburg and Fred Rosner, 347
Hospital care/cooperative care, options for the practice of medicine, Home care. Anthony J. Grieco, 318
Hospital responses to medicare's prospective payment system. Stephen Zuckerman, Judith Feder, and Jack Hadley, 52
Housestaff at a large municipal hospital, Ambulatory care continuity experience for medical. Robert J. Starkenburg and Fred Rosner, 347
Human immunodeficiency virus (HIV) in the United States, Heterosexual transmission of. James R. Allen, 464
Human immunodeficiency virus infections: considerations for health care workers. Gary P. Wormser, Carol Joline, Steven L. Sivak, and Zalmen A. Arlin, 203
Human obesity: causes, Some perspectives on. Albert J. Stunkard, 904
Human obesity: treatment, Some perspectives on. Albert J. Stunkard, 926

I

Ideology, Driver education: the mix of science and. Leon S. Robertson, 617
Iglehart, John K. A perspective on the future of infectious disease reimbursement, 577
Immunodeficiency virus (HIV) in the United States, Heterosexual transmission of human. James R. Allen, 464
Immunodeficiency virus infections: considerations for health care workers, Human. Gary P. Wormser, Carol Joline, Steven L. Sivak, and Zalmen A. Arlin, 203
Industrialization, and high-energy foods, Alcohol. Vincent J. Knapp, 430
Industry situations, Problems with old diseases related to social and pharmaceutical. Harold C. Neu, 456
Infections: considerations for health care workers, Human. Gary P. Wormser, Carol Joline, Steven L. Sivak, and Zalmen A. Arlin, 203
Infectious disease academic division: The perspective of a division chief, Economic problems facing the. Vincent T. Andriole, 557
Infectious disease physician—future tense? The. John E. McGowan, Jr., 449
Infectious disease reimbursement, A perspective on the future of. John K. Iglehart, 577
Infectious diseases in the academic medical center: the perspective of a chairman of medicine, Economics and. Donald Kaye, 550
Infectious diseases practitioner, Appropriate reimbursement of clinical services of the. Stephen E. Lawton, 591
Injuries in California, 1985, Motorcycle design and crash. Jess F. Kraus, Paul Zador, Shakeh Arzemanian, Craig L. Anderson, and Steven Harrington, 790
Injuries in state and local health departments: the New York model, Prevention of motor vehicle. Susan J. Standfast, 848
Injuries, Keynote address: motor vehicle. Dan-

iel P. Moynihan, 610
Injury as an issue in violence. William H. Foege, 782
Injury control and engineering education. Russel C. Jones, 840
Injury control, Federal resources for. Stuart T. Brown and James Monroe, 859
Injury risks posed by incompatabilities between truckers and other highway users. Robert D. Ervin, 818
Interventions, Panel discussion: behavioral. Andre O. Varma, 662
Intravenous antibiotic therapy, Home management of. Donald M. Poretz, 570
Introduction. Harold C. Neu, 445
